WE ARE FAUSTO

3

Fausto Commercial is a leading South Florida urban commercial real estate brokerage, investment, and redevelopment firm.

Fausto Commercial was founded by Carlos Fausto Miranda, on the principle that Commercial Real Estate is the most effective investment vehicle for generating wealth, as well as the most powerful tool for crafting communities and improving people's lives.

5

At Fausto Commercial, we believe that Real Estate is the Main Stage of the full human experience, guiding the cultural, social, and economic interactions that define a community. These are the ideas that drive our belief that, through the creative, value-adding improvement of Real Estate, we can improve people's lives and craft better neighborhoods on the canvas that is our City. It goes to the aggressive and intelligent engagement of business, which builds wealth for our clients and investors, while maintaining focus on business as a platform to do Good in our Community.

Our fulfillment is not in the land or structures we sell, rather in what we can accomplish to leave an everlasting mark in

our city, together.

The City is a work of Art, a work of Art we collectively create.
