Little Havana is a magnet for multifamily investment. For residents, the area offers cheaper rents than nearby downtown Miami and Brickell. This three-story, 29-unit building fits the mold of micro-unit living with its nostalgic architectural elements and great density. Poised in a great location near the Miami River, Jose Marti Park, Brickell, Downtown and all the employment centers it is an excellent choice. With immediate access to I-95, and walking distance to Calle Ocho. Its prime proximity to everything is a tremendous amenity.
